

LIFE IMPACT TRACKER FOR OVERACTIVE BLADDER (OAB)

OAB CAN AFFECT QUALITY OF LIFE.

OAB is one of the most common chronic conditions affecting women in the U.S.^{III} Studies show that its psychosocial, economic, psychological and physical impact extends into every area of daily living. ^{III, IV, V}

Tracking individual symptoms is only one piece of the total OAB picture for a woman's life – having a greater understanding about how OAB impacts your life over time is also powerful information.

Use the charts below to gauge how you may be living your life differently as a result of OAB. This tool can help you start a conversation with your doctor.

The charts include several “starter” activities for you to track your symptoms and document the ways you try to cope right now.

How often does OAB cause you to avoid the following activities?

	<u>Often</u>	<u>Sometimes</u>	<u>Seldom</u>	<u>Never</u>	<u>Notes/Dates</u>
Exercising?					
Traveling?					
Going out with friends?					
Having sex?					
Going to work?					
Other 1					
Other 2					
Other 3					

How often does your OAB cause you to feel _____ ?

	<u>Often</u>	<u>Sometimes</u>	<u>Seldom</u>	<u>Never</u>	<u>Notes</u>
Anxious?					
Depressed?					
Embarrassed?					
Angry?					
Frustrated?					
Other 1					
Other 2					
Other 3					

MSD Consumer Care, Inc, a subsidiary of Merck & Co., Inc has paid for the overactive bladder portion of this program to be developed and provided to you and has provided editorial input on this program.
